IS OVERRULED. Harvey M. Mursell, the juror who, at the conclusion of the trial of Richard Short, on a charge of attempting to kill Captain Thomas Phelan, was sent to Ludiow Street Jail by Justice Van Brunt, for con-tempt of court in visiting the scene of the afray during the progress of the trial, was yesterday discharged from confinement after just two weeks im prisonment, under a ruling of the General Term of the Bupreme Court. Justice Daniels wrote the opinion of the Gourt. Justice Daniels wrote the opinion of the Court. Justice Davis wrote another, in which, while disagreeing with his associate in regard to a minor point, he arrives at the same general conclusion. Justice Brady concurred with the latter. Justice Daniels in his opinion says the sale authority for proceeding against the relation. the sole authority for proceeding against the relator, if it exists at all, is contained in that clause in the Code of If it exists at all, is contained in that clause in the Code of Civil Procedure which subjects a person to punishment by the Court for criminal contempt "for a wilful dis-opedience to its lawful mandate." From an examination of section 3,343 of the Code he concludes that a "mandate" is, as there defined, "a writ, process or other scritten direction issued pursuant to law out of a court, or made pursuant to law by a court or a judge or a peror made pursuant to law by a court or a judge or a person acting as a judicial officer, and commanding a court,
board or other body, or an officer or other
person named or otherwise designated therein,
to do, or refrain from doing, an act therein specified."
Justice Daniels maintains that under this definition the
word includes only such commands or directions as may
be made in writing. But even if this were not so, he declares, the case against the gelator would still be unausthed for it was not denied that no direction, written ned, for it was not denied that no direction, written oral, was given to the jury on the subject, and as there was no mandate there could be no disobedience and no criminal contempt. While the juror's conduct

or oral, was given to the jury on the subject, and as there was no mandate there could be no disobedience and no criminal contempt. While the juror's conduct well deserved condemnation it could not be punished as a contempt. The order of the Court below should therefore be reversed and the prisoner discharged.

Justice Davis, in his opinion, says that he cannot concur with Justice Daviels in the limitation that his construction of section 8 of the Code imposes on the power of the courts to punish for criminal contempts. He holds that it is erroneous to conclude that there can be no punishment under it for criminal contempts. He holds that it is erroneous to conclude that there can be no punishment under it for criminal contempt except for violation of such written orders as are therein particularly mentioned. He says the provision that certain specified things shall be included in the word "mandate," as used in the Code, is by no means an exclusion of anything cless properly within its signification. A court of record has power to make lawful mandates which are not included in writs, processes or written orders. The making of an order by a Court in the progress of a trial, in writing or orally, in the presence of and to the person or persons affected by it, is a lawful mandate of the Court, and a wifful disobedience of it is a criminal set. The relator committed a misslemeanor, for which he may be indicted, tried and, if convicted, punished. The only thing that stands in the way of his punishment for criminal contempts is the simple fact that his misconduct was forbidden by statute only and not by a mandate of the Court. If the Court had instructed the jury orally or otherwise that they or either of them could not visit the office of O'Donovan, where the crime was charged to have been committed, unless allowed by the Court, as prescribed by the Court, as prescribed by the Court had instructed the jury or ally or otherwise that they or either of them could not visit the office of O'Donovan, where the crime was c

WRANGLING OVER THE FRENCH ESTATE. A motion was made before Surrogate Rollins

A motion was made before Surrogate Rollins yesterday in behalf of Thomas J. French, by his counsel, George W. Blunt, for the re-aoval of all the other executors natived in the will of his fatner, Colonel Richard French. In his allidavit Mr. French declares that the other executors, and brothers, are incompetent, that they have mismanaged the estate, that they have made unhauthorized investments and disabeyed the orders of the Surrogate. He says that Charles T. French, in consequence of an accudent "while out guaning in June, 1864," whereby he lost his eyestight, has become victous, obstinate and ecceatric, is governed by others, and on one occasion discharged firearms at the head of the stairs in his house at night, declaring that there was burglars in the house, and has struck young children in his house without cause.

George Bluss replied for Charles T. French that his father had himself selected nim in 1872 as executor, and gave him twice as much money on account of his blindness as to the other executors. No reason had been fiven for removing the executors. Thomas J. French had himself mortgaged his share for \$21,000 and promptly passed it over to his wife so that it might not be followed.

MISS KATE FORSYTH RECOVERS \$566. Miss Kate Forsyth appeared in the City Court.

Part L, before Judge Hyatt yesterday, and taking the witness-stand testified in her suit against Telemaque T. Timayenis. She stated, after a vain effort had been made by Miron Winslow, counsel for the defendant, to have the hearing adjourned, that on March 1, 1844, she made a contract with Mr. Timayenis to write for her a five-act play to be called "Marcella." She paid him five-act play to be called "Marcella." She paid him \$500 down and he wrote two acts of the play. He submitted these to her, but failed to finish the play or to return her her money, although she had frequently demanded it. Miss Forsyth read the contract aloud, with emphasis and effect. No other witness was called, and Judge Hyatt ordered a verdict for the full amount, \$500. In reply to a question from the Judge she said: "I will forego the interest." Gracefully bowing her thanks to Judge and jury, she left the court-room surrounded by triends.

CONEY ISLAND COMPANIES IN CONFLICT.

Justice Lawrence sat late in the Supreme Court, Chambers, yesterday afterneon to listen to arenments on an application by A. B. Boardman in behalf of the Staten Island Rapid Transit Company, and Alfred C. Chapin for the Long Island Rathroad Company, for a C. Chapin for the Long Island Railroad Company, for a modification of the injunction restraining them from interfering with the use of the Manhattan Fier at Bay Rilige and the Whitehall slip in this city by the New-York and Sea Beach Railroad Company. E. Ellery Anderson appeared in behalf of the Sea Beach Company. After a prolonged discussion the injunction was so far modified as to permit the boats of the Staten Island Rapid Transit Company to make boarly trips on the hours between the two piers to-day and to-morrow and those of the sea Beach Company to run on the half hours from the same piers and on the same days.

O'DONOVAN ROSSA SUED.

An action brought by Dr. Denis D. Mulcahy against J. O'Donovan Rossa, occupied the attention of Justice McAdam in the City Court yesterday. The plaintiff claims that in February, 1877, he made a contract with Rossa for the removal (for the latter) of the body of Colonel John O'Mahoney to Ireland. Rossa was to pay him \$1,000, and of this paid \$300 at one time, and \$237 at another, leaving a bahasce due of \$463. A suit to receiver it is amount was begun in the Superior Court against Rossa has one of the trustees of the sufmishing fund. Rossa denied that he had anything to do with this fund and that suit was discontinued. A second suit was then begun in the City Court. Rossa, in his answer, admitted that he had paid the \$300, but said it was given as a gratially from the fund of Fehina Brotherhood. He said he knew mothing of the alleged payment by him of \$237 afterward. He also pleaded the statute of inditations, six years having experded since the contract was claimed to have been made. Yesterday Dr. Malicaby, acting as his own lawyer, argued a motion to strike out this answer on the ground of fraud and perfory on the part of Rossa, Thomas Rolan, for Rossa, opposed this. ENTITLED TO A TRIAL BY JURY.

Justice Bartlett yesterday in the Sapreme Court. Brooklyn, gave a decision in the case of Thomas Bevine, the Yonkers striker. Devine was arrested for the ferms with workmen who took the places of the strikers in the Yonkers for a trial by Jury and the application was granted, but the carpet-mill owners obtained from Judge Cullen, in the Supreme Court an order to show cause why a mandamus should not base compelling Judge Pentz to proceed with the trial without a Jury. Justice Bartlett heard the argument and sustained the action of Judge Pentz for a trial by jury. In his opinion, he says: "The most that can be said is that where a defendant charged with being a discretify person is brought before him, it becomes the duty of the City Judge to decide whether, under the law, he should try the particular charge with or without the said of a jury. His decision of that question is a strictly junicial determination, which it is not the office of a writ of mandamus to review.

THE CASE OF NATHANIEL SANDS

A motion to set aside the judgment for \$142,000 obtained in April last in a suit brought by the city against Nathaniel Sands, was argued before Justice Lawrence in the Supreme Court, Chambers, yesterday. The suit was brought to recover \$75,000 paid to Mr. Sands under an agreement with Richard B. Connolly, as Controller, in 1871, to pay him one-half of 1 per cent for negotiating \$150,000,000 of city bonds. Mr. Sands negotiated \$15,000,000 of the bonds and took \$75,000 as his commission, which, with accrued interest, amounted to \$142,000. Mr. Sands, after his recent arrest in Connecticut, was held to bail in \$150,000, a motion to reduce which is a waiting the result of the motion to open the inquest and set aside the judgment.

Miron Winslow urzed the motion, saying that Mr. Sands did not know that the suit hal been pressed, and supposed it was dead long ago. Meantime he had received no information of it from his counsel, who did not know where he was. He insisted that Mr. Sands was entitled to the \$75,000 for commissions, and that he had an equitable counter chaim for \$175,000 additional against the city for the balance of the loan. Thomas P. Wickes and Charles P. Miller opposed the motion, and claimed that as Mr. Sands was a Tax Commissioner at the time of the Isansections he had no right to the commission. Justice Lawrence reserved his decision.

BRIDGEFORT, May 23.—Nathaniel Sand., of Norwalk, who is held under \$150,000 hall, was again brought before Judge Pheips in the Superior Court this morning on a writ of habeas corpus, and application was made by his counsel for a reduction of bail. A question which seemed to stand in the way of a re-establishment of the conference was with regard to the fast, or seven-days' steamships allowing the other steamers differential rates. It has been agreed that the fast steamers of the Conard Line shall allow the steamers of the White Star Line a differential rate of 5 per cent, and other lines a differential rate of 10 per cent. It is believed that when the North Atlantic Conference is reorganized steerage rates on all of the lines will be advanced to \$30.

GRAIN AND PRODUCE MARKETS.

NEW-YORK, May 29. The grain markets to-day sustained a rally hat was of little importance. For a short time in the morning there was a fair buying to cover shorts, but for morning there was a fair buying to cover shorts, but for the greater part of the day the tendency of prices was downward under the influence of the fine weather for the spring wheat crop, the large receipts and the absence of outside purchases. At the recent decline a better ex-port demand has been reported and the engagements to-day included over 120,000 nushels of wheat and about 120,000 nushels of cora. The markets ended unsettled, 120,000 bushels of corn. The markets ended unsettled, without special feature, but with some bulls hoping for a raily next week in view of the general bearish course of this week's speculation. In wheat options the decline from is at high ranged from 5 to 14 cent; final figures were as follows; June 95% cents; July \$1,00%; August \$1,02; and September \$1,03%, in corn June as 5.2% and July at 5.2% cents snowed losses of 5% cent; August at 5.3% and September \$1,50% cents of 5% cents for June and 37% cents for July; August options were unchanged at 34 cents. In the provision markets, fard continued weak and while June options at \$6.70 show a gain of I cent, the other months fell 6 cents to \$6.73 for July; \$6.83 for August and \$6.96 for specific properties.

CLOSING PRICES OF BOSTON STOOKS. BOSTON, May 29, 1883,

The stock speculation, what there is of it, to-day was disturbed by developments of trouble in the newly organized Western pools, which were foreseen by the knowing ones from the beginning, and by a break in Philadelphia of about 5 per cent in the price of Pennsylvanta Railroad stock. The support to which the market has become accustomed was partly withdrawn, and such as there was was given only spismodically and in selected spots. Hence with a business of 178,254 shares by no means large, but the largest of this week-prices were drooping and promisenous holders of stock, who are holders only because of their belief that the cliques must force an advance to find a market for their shares, were discontented if not disgusted. The feature of the

day's market is that such declines as were made were without the aid of "raids" or "hammering." Bears were the chief buyers of the early day and they probably are as much disgusted as any one at the absence of the usual and proverbial ante-holiday raily. The business was better distributed than usual of late, and there is nothing that calls for special mention except the support given to Delaware, Lackawanna and Western. That stock recorded transactions of 26,100 shares against 58,900 shares yesterday, and it was exceptional in opening ½ per cent higher than last evening's figure; it later sold up % to 101%, declined to 100%, but its final price of 101% shows an advance of & per cent—the only active stock that does not show a decline. Central of New-Jersey lost more than yesterdecline. Central of New-Jersey lost more than yester-day's gain and closed at 36. Among the granger stocks Northwestern was the stock selected for special support and it shows a final decline of only 14 per cent, while 8t, Paul is down 7g and Omaha preferred 12g per cent. The market closed weak at small recoveries from the lowest

figures, but the sales and bids for the 3s were off 's per cent. Annexed are the closing quotations :

The London market again was buoyant for British consols; they opened up 7-16 at 109% and after a reaction of 4 closed strong at 1004. United States bonds were not quoted. American railways opened weak at declines from last evening's figures; but as usual the changes were nothing more than reflections of the home markets; as a rule their prices follow surs up or down, but generally are below the equivalents of home prices. The extreme ease of money here, which enables the demand for a premium on borrowed stock, seriously interferes with the dealines of arottration traders, so that nearly all the stock sold here for European account is sold to arrive. Bar silver was off 4gd at 494gd per ounce. At Paris French 3 per cents were steady at 80.424s.

Vanderbilt's Money Couldn't Buy It,

Vanderblit's Money Couldn's Buy It.

The Accord News and Farmer of this week says: "Mrs Elizabeth Baker, living within three miles of Accords, remarked that Vanderblit's fortune could not buy from hes what six bottles of Swift's Specific has done for her. Hes statement is as follows: 'For thirty-one years I have suffered almost death from that horrible disease, scrotula. For years I was unable to do saything in keeping up my domestic affairs. Last October I was induced to try Swift's Specific, and used two bettles, and was so much benefited by it that I purchased four more from Mesers. Northeut & Johnson, which has almost entirely rolleved me. I feel like a new person, and can do all my own housework. Refore I took the S. S. my life was a burden, as my entire person was covered with sores, and in this miserable condition I did not care to live. I had tried overy known remesty, and my case was generally regarded as incurable. I had been treated by the bost physicians to no avail. I most heartly recommend swift's Specific to the afficted,"

Mesers. Northout & Johnson, merchants at Acworth, says "We know Mrs. Elizabeth Baker personally; we are familiated with her case. She is highly esteemed in this community."

With her case. She is highly esteemed in this community."

Etheuruntism Twenty Years.

I have been a sufferer from rheumatum for twenty years, at times with almost intolerable pain. I had the best medical treatment, and took all arts of remedies, but without relied. Being reduced almost to a skeleton, and not being able to wilk even with cratches. I was induced to try Swift's Specific, and it acted like a charm, and I am today outirely relieved, have thrown away my cratches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism. Mrs. EZRA MERSHON, Macon, Ga., Aug. 4, 'S.

SWIFT'S SPECIFIC must not be confounded with as numerous Potesh, Mercury and Sarsaparilla mixtures which are being advertised as great cure-ails. There is nothing like our remedy in the world. Callet our N. Y. office or sent for treatise on Blood and skin Diseases.
